MISSION ASSURED

The Chief Information Officer–Solutions and Partners 3 (CIO-SP3) Government-Wide Acquisition Contract (GWAC) is a 10-year Indefinite Delivery/Indefinite Quantity (ID/IQ) contract with a \$20 billion ceiling. This contract is intended to provide information

technology (IT) solutions and services. The GWAC can be used by Federal, civilian, or DoD agencies. CIO-SP3 allows for streamlined planning, acquisition, and deployment of large-scale IT program requirements.

Features	Benefits
\$20B ceiling and a 10-year multiple award ID/IQ GWAC	Allows for long-term planning of large-scale program requirements
Scope aligned with Federal Enterprise Architecture, Department of Defense Enterprise Architecture, and Federal Health Architecture	Conforms to Office of Management and Budget (OMB) policy mandates for IT investments and evolves over time as emerging technology develops
10 task areas for IT requirements	Meets scientific, health, administrative, operational, managerial, and information management requirements for complex solutions
All contract types are supported, (e.g., fixed-price, cost-reimbursement, incentive, and time-and-material/labor-hour)	Offers flexibility of contract types for optimal risk mitigation
Ancillary support permitted when it is integral to and necessary to the IT effort	Facilitates integrated IT solutions
Access to exceptionally qualified industry partners	Enables innovative solutions at competitive prices from experienced providers
Aggressive subcontracting goals of 33% of subcontracted dollars	Provides subcontracting opportunities for small business
Pre-competited, easy-to-use contract with streamlined ordering procedures based on FAR 16.505	Saves time and money by reducing procurement lead time
One-day turnaround on complimentary scope-compatibility reviews	Promotes contract compliance and reduces risk of adverse audits
E-GOS ordering system	Secure Web-based systems for automated task order competition, management, awardee section, and notification
Best available ceiling rates negotiated at the master contract level and labor categories easily added at task order level	Flexibility at contract and task order levels dependent on scope of task order
