The best value in public procurement contracts in all 50 states.

The National Association of State Procurement Officials' Purchasing Cooperative

NASPO ValuePoint and Smartronix, a true cooperative.

NASPO ValuePoint is founded on the philosophy that true collaboration creates higher quality, best value prices, superior terms and conditions, and better solutions for all public entities. That's why we work with all 50 states and local governments, colleges, universities, and schools throughout the country.

Turn compromise into choice.

With the highest quality, best price, and widest selection you can get exactly the solution you need without compromising.

Get more value, closer to home.

Put the power of the largest public purchasing cooperative in the country to work for you. With over 50 portfolios consisting of nearly 300 contracts, we make it possible for you to work with national suppliers and your local vendors to get the best value—in quality, price, and selection nationwide.

Harness the power of collaboration.

Collaboration is key to creating the best value for public procurement. We leverage the power of all 50 states to give you the contracts your organization needs with zero compromise. Working with state and local government agencies, education institutions, and public school districts throughout the country, we ensure you get the best deals and superior terms and conditions.

Work with the best.

Our solicitations are established with your needs and requirements in mind. They meet or exceed your organization's competition and transparency requirements. We work with teams of veteran public procurement professionals, subject matter experts, and actual users to competitively solicit, evaluate, and award contracts in accordance with state procurement statutes.
