

Cloud Assured Framework

A Full Life-Cycle Approach to Secure Cloud Services

Solutions developed by the Smartronix Cloud Assured Team provide a distinctive cloud experience. Combining a strong enterprise services history with the agility of an organization well-versed in DevOps methodologies, our Team can strategize, consult, architect, deploy, secure, and manage complex enterprise solutions of any size ranging from start-ups to global enterprises. We operate under agile and continuous improvement methodologies while delivering business-focused solutions that exceed customer expectations.

STRATEGY - With more than 20 years of enterprise enablement experience, Smartronix can help create or evolve your information technology (IT) strategy to take advantage of cloud today and build for the technologies of tomorrow with our Cloud Assured solutions.

DESIGN - Whether moving one application, one workload, or an entire enterprise, or developing new services in the cloud for the first time, the Smartronix Cloud Assured Team can design and build innovative and scalable infrastructures to support unique customer needs.

IMPLEMENTATION - The cloud decision is made and the plan is in place, but your Team is busy making sure today's business continues running. Our Team of cloud experts are here to turn your vision into reality or increase the velocity in which you are already moving.

MANAGED SERVICES - Free IT operators from the daily "run it" activities that do not add business value and allow them to focus on growth. Smartronix Cloud Assured Managed Services (CAMS™) are audited, certified, and here to assure your operations 24x7x365.

INNOVATE - Transforming your organization, business processes, and the way IT services are delivered requires a continuous improvement mindset. At every step along the way, we work with you to find opportunities to rethink and reframe what is possible. Innovation needs to be woven throughout your entire cloud journey and you can rely on our expertise and experience to help you identify, plan, and execute modernization initiatives as part of a strategic roadmap for your future success.

Smartronix is more than 'just IT'. We have developed, delivered, and operate solutions for defense organizations, civilian agencies, financial institutions, media and entertainment companies, healthcare systems, logistics enterprises, and more. We are an organization that knows more than cores and bytes, we are a partner that knows your industry, differentiators, and constraints. Our past performance, diverse skill-sets, and the extraordinary tenure and commitment of our team means we are more than just a cloud services provider.
